

University of Idaho

Architecture

Design your world

The University of Idaho Architecture program is your first step toward a career in architecture. We offer a program that explores the built environment and its role in how people live, work and play; and teaches students about the power of architectural thinking and making.

In-depth design studio experiences immerse students in a variety of design exercises ranging from real-world problems to creativity-building architectural speculations. As a graduate, you'll have strong technical skills and an in-depth understanding of how architecture affects people's lives everyday.

Degrees offered:

- Architecture, B.S.
- Architecture, Master of
- Integrated Architecture & Design, M.S.

Earn your bachelor's and master's degree in less than six years

The University of Idaho offers a "seamless" professional architecture program, making it possible to earn an undergraduate and master's degree in as few as five and a half years.

NAAB

The University of Idaho
Architecture program offers
the NAAB-accredited Master of

Global Student Success Program

The University of Idaho Global Student Success Program provides pathways into undergraduate and graduate degree programs in architecture. Both levels allow international students to take university credit courses in a small class environment, with flexible start dates throughout the year (January or August). Upon successful completion of the program students will enter the undergraduate or graduate degree program in Landscape Architecture at the University of Idaho. For more information, including program tuition and fees, please visit uidahoglobal.com.

The winning entry of the "Best Use of Idaho Wood" architectural competition. University of Idaho student Ruina Du of Xi'an, China won a first place plaque and \$500.
